

Impact of the Homestead Credit Elimination and Value Exclusion Replacement

Based on House Research Dept. simulation #11F1 and #11F2 using data for taxes payable in 2011

House Districts

Districts listed alphabetically by last name of member

Within each district, cities listed first (alphabetically), followed by towns (alphabetically)

See final page for summary statistics

Name of City/Town (Amount in parentheses represents percent of city population within the legislative district based on 2000 Census)	Type (C=City, T=Town)	2010 Population	Percent Change in Tax Due to Homestead Credit Elimination and Value Exclusion (see final page for explanation of property types)								
			Total Res. Homestead	Avg. Value Homestead	Total Res. Non-Homestead	Total Apartment	Total Seasonal Recreational	Total Business	Total Agricultural	Total Miscellaneous	TOTAL ALL PROPERTIES
<u>District 48B--Representative Jim Abeler</u>											
Anoka (100%)	C	17,142	5.2%	5.4%	6.8%	6.9%	6.9%	3.1%	8.2%	6.6%	4.5%
Ramsey (100%)	C	23,668	3.6%	3.8%	4.6%	4.7%	4.8%	2.0%	4.9%	4.7%	3.2%
<u>District 19A--Representative Bruce Anderson</u>											
Buffalo (100%)	C	15,453	4.3%	4.5%	5.7%	5.7%	5.7%	4.3%	6.2%	5.8%	4.5%

†The statewide average value homestead property tax increase is not reported in simulation #11F1 or #11F2.

Explanation of Property Types

The information in this printout is derived from House Research simulation #11F1 and #11F2. These simulations divide property into 13 classes; for presentation purposes, this printout combines those 13 classes into 7 classes. The table below lists the 13 House Research property categories that were combined to form the seven categories used in this printout.

These categories of property from House Research simulations...	...are combined to form these categories used in this printout
Residential Homestead (Res Hmstd)	Residential Homestead
Residential Non-Homestead (Res Non-Hmstd)	Residential Non-Homestead
Apartments Low Income Apartments (Low-inc Apts)	Apartment
Seasonal Recreational (Seasonal Rec)	Seasonal Recreational
Commerical/Industrial Low Tier (Com/Ind: Lo) Commerical/Industrial High Tier (Com/Ind: Hi) Public Utility: Electric Generation (Publ U: Elec Gen) Public Utility: Other (Publ U: Other)	Business
Agricultural Homestead House (Ag Hmstd House) Agricultural Homestead Land (Ag Hmstd Land) Agricultural Non-Homestead (Ag Non-Hmstd)	Agricultural
Miscellaneous (Misc props)	Miscellaneous

Amounts listed under "Average Value Homestead" are the percent change in property taxes for an average value homestead property in each community. Amounts listed under "TOTAL ALL PROPERTIES" is the percent increase in total property taxes paid within the community. Both amounts are derived from the #11F1 simulation.

*Exception for Breckenridge, Dilworth, East Grand Forks, and Moorhead

Information in this printout is based on House Research simulation #11F1, except for information for the cities of Breckenridge, Dilworth, East Grand Forks, and Moorhead, which is based on simulation #11F2. Simulation #11F2 is used for these four cities because it adjusts for an anomaly related to the disparity reduction credit, which reduces business property taxes in these four cities.
